SOFTWARE ENGINEER

Flatiron School graduate experienced in Ruby on Rails, JavaScript, React, Redux with a background in Psychology and Family Science. I enthusiastically bring strong skills in team-building, communication, debugging, data analysis, and leadership which help progressive companies succeed. My strong background in STEM, along with my creativity and drive to succeed, has led me to love programming and building software.

TECHNICAL SKILLS

Ruby, Rails, SQL, Javascript, React, Redux, HTML, CSS, PostgreSQL, SQLite, Git, JSON, Microsoft Suites, Adobe

TECHNICAL PROJECTS

Sports Programming Network (SPN) - [Github - Backend](#) | [Github - Frontend](#) | [Demo](#)

Sports news web application for your up-to-date sports stories.

- Developed a Rails API backend with endpoints for users, teams, players, and leagues.
- Utilized JSON Web Tokens and localStorage to store encrypted user information client-side and bcrypt server-side.
- Used multiple APIs and Nokogiri Web Scraping to upload and display media throughout the application.
- Managed state and user experience with React for scalability.
- Implemented the user interface with fully CSS styling using Semantic-UI and Bootstrap frameworks.

Bassy Jobs - [Github-Backend](#) | [Github-Frontend](#) | [Demo](#)

A job seeking app designed to help job seekers find jobs and help companies list new jobs for hire.

- Developed a Rails API backend with endpoints for users, company, and job listings.
- Utilized JSON Web Tokens to store encrypted user information client-side and bcrypt server-side.
- Utilized components and their life cycles, props, and states via Reacts' structural hierarchy for scalability.
- Implemented the user interface with fully CSS styling using Semantic-UI.

AnimalGram - [Github-Backend](#) | [Github-Frontend](#) | [Demo](#)

Social media platform for users to share their pets' pictures.

- Developed a Rails API backend with endpoints for users, posts, organizations, likes, comments, and friends.
- Developed the frontend reactivity and user experience completely in vanilla Javascript.
- Utilized localStorage to funnel information across the web application.
- Implemented the user interface with fully CSS styling.
